easypost.

Multi-Carrier Shipping API
Fast. Flexible. Reliable.

EasyPost helps thousands of companies, ranging in size from multinational Fortune 100 companies to small neighborhood stores, ship billions of packages around the world.

We remove the technical complexities of logistics so our customers can get back to growing their business.

The EasyPost Solution

1 Enter Shipment Information

Address Verification API

Fully CASS-certified, **99.8% accurate, and 10x faster** than SmartyStreets, with cheaper geolocation than Google.

2 Select Shipping Method

Rating API (SmartRate)

First-ever rating engine to return prices *and* Time-in-Transit predictions with **98% accuracy by analyzing over a billion historical shipments**.

3 Generate Shipping Label

Shipping API

Singular integration to implement and maintain, providing access to **over 100 carriers** across the globe with **99.99% API uptime**.

4 Your Order Has Shipped

Tracking API

Real-time shipment updates through custom-branded tracking pages and webhook notifications.
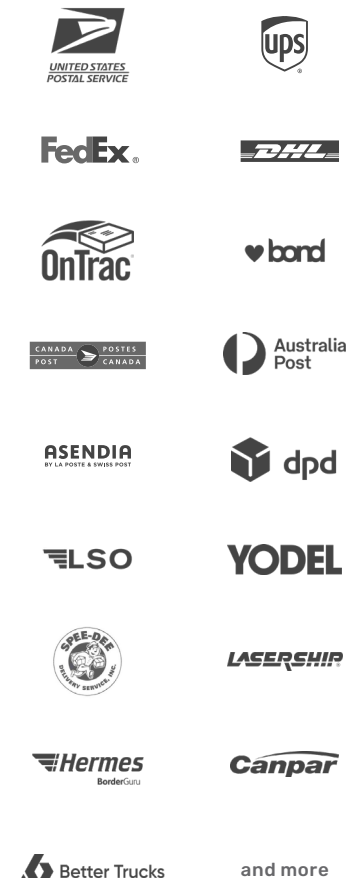

5 Shipping Mishap

Insurance API

Up to **$15k coverage for any product shipped with any carrier to any country**. Underwritten by our own EasyPost captive.

Carrier Integrations

Our mission is to provide the fastest, most reliable shipping API in the industry. Our best-in-class API has out-of-the-box integrations with more than 100 carriers around the world.
